moving and leaving **Europe**

Free service!

Map of Europe showing the number of COVID-19 cases per country. The numbers are displayed in colored circles: green for low numbers (2, 4, 5, 6, 8), yellow for medium numbers (18, 19, 28, 29, 30, 47, 52, 55), and orange for high numbers (116). Information icons (i) are placed in Iceland, Norway, and Turkey. Major cities like London, Paris, Berlin, and Moscow are marked with dots. The map includes labels for countries in Spanish and English, and the names of the surrounding seas.

EURAXESS - Researchers in Motion

The screenshot shows the EURAXESS website homepage. At the top, there is a blue navigation bar with the European Commission logo on the left and several menu items: JOBS & FUNDING, PARTNERING, INFORMATION & ASSISTANCE, EURAXESS WORLDWIDE, MY EURAXESS, and EXTRANET. To the right of the menu are search and globe icons. Below the navigation bar, the main content area features a large background image of a man in a white shirt looking out over a city skyline at sunset. On the left side of this area is the EURAXESS logo. In the center, the text 'How can we help you?' is displayed above two dropdown menus. The first dropdown is labeled 'I am' and the second is labeled 'I want', both with 'Please select' as the placeholder text. Below these menus is a yellow 'SEARCH' button.

Welcome

EURAXESS - Researchers in Motion is a unique pan-European initiative delivering information and support services to professional researchers. Backed by the European Union and its Member States, it supports researcher mobility and career development, while enhancing scientific collaboration between Europe and the world.

EURAXESS is also your gateway to Science4Refugees, a Commission's initiative helping refugee researchers find suitable jobs in today's challenging research landscape. Part of the initiative, is the Science4Refugees Research Buddies, supporting refugee scientists in finding European researchers to discuss problems, find solutions and study together, by matching their research field, scientific studies and interests.

ORGANISATION NAME	NWO	DEADLINE DESCRIPTION	2 PM CET
ORGANISATION COUNTRY	Netherlands	RESEARCH FIELD	Formal sciences Humanities Natural sciences Professions and applied sciences Social sciences
FUNDING TYPE	Mobility Outgoing	CAREER STAGE	First Stage Researcher (R1) (Up to the point of PhD)

Outline

The aim of the

programme is to encourage talented researchers at Dutch universities and KNAW and NWO research institutes who have recently received their PhD to continue in academic research after having gained their PhDs. It offers them the opportunity to enhance their career prospects by spending up to 2 years gaining relevant knowledge, skills and experience at a top research institute outside the Netherlands. For certain scientific disciplines that focus on Dutch topics, e.g. Dutch language, culture and law, there is an option to apply for a Rubicon at a Dutch research institute.

The aim of the programme is to encourage talented researchers at Dutch universities and KNAW and NWO research institutes who have recently received their PhD to continue in academic research after having gained their PhDs. It offers them the opportunity to enhance their career prospects by spending up to 2 years gaining relevant knowledge, skills and experience at a top research institute outside the Netherlands. For certain scientific disciplines that focus on Dutch topics, e.g. Dutch language, culture and law, there is an option to apply for a Rubicon at a Dutch research institute.

What is funded

Applicants can apply for a stay of at least 12 months and no longer than 24 months at a top academic research institute outside the Netherlands. There is also a limited opportunity to apply for a research period of at least 12 months and no longer than 24 months at an excellent Dutch research institute. It is not possible to combine a stay in the Netherlands and abroad.

Eligible costs for funding are salary costs for the researcher including the relevant social fees and taxes, research costs and travel costs. Costs for infrastructure (housing and office equipment) and overhead are not eligible for funding.

Duration

Two years (24 months) maximum.

Eligibility

Any postgraduate who is currently engaged in PhD research or who has been awarded a PhD within 12 months preceding the relevant deadline for the submission of applications may apply for a Rubicon grant. For further details please see the call for Proposals which can be downloaded from <https://www.nwo.nl/en/funding/our-funding-instruments/nwo/rubicon/index.html>.

FIND PERSONAL ASSISTANCE

OFFER DEADLINE	05/06/2017 23:00 - Europe/Brussels	ORGANISATION/COMPANY	University of Alcalá
EU RESEARCH FRAMEWORK PROGRAMME	FP7 / People-Marie Curie Actions	DEPARTMENT	European Projects Office
LOCATION	Spain, Alcalá de Henares		

Early-Stage-Researcher (ESR) 8 – Stability, release and functionality (BIBAFODDS): Characterization of materials and their enzyme interactions by Raman Spectroscopy

Department of Analytical Chemistry, Physical Chemistry and Chemical Engineering at the University of Alcalá (Spain) is offering a position as Early Stage Researcher commencing 1st of July 2017 or soon thereafter. Duration: 6 months and 19 days.

Project description

The objectives of the project are the characterization of interactions between silica-based hosting materials and enzyme evaluated at different conditions by vibrational spectroscopy, in correlation to their activity studies. To know more about the subject, the candidates can review the previous work in: <http://pubs.acs.org/doi/abs/10.1021/acs.langmuir.7b00134> and <http://dx.doi.org/10.1080/05704928.2015.1075207>

Job description

Your key tasks as an early-stage researcher are:

- Manage and carry out your research project
- Participate in the BIBAFODDS network activities

Established researcher (with PhD) for development of an innovative small scale device for the treatment of solid waste using plasma technology

CONTACT

SAVE TO FAVORITES

FIND PERSONAL ASSISTANCE

OFFER DEADLINE	28/07/2017 17:00 - Europe/Athens	ORGANISATION/COMPANY	IRIS SRL
EU RESEARCH FRAMEWORK PROGRAMME	H2020 / SME Innovation Associate		
LOCATION	Italy, Orbassano		

We are IRIS Srl, an innovative PMI from Turin, Italy.

Born in 2012, we specialise in developing innovative, small scale and low cost devices for treating unrecyclable solid waste and for purifying (waste)water and liquid foodstuff. Currently employing 6 members of staff, we are growing fast and currently looking for a **specialist (grade R3 "Established Researcher")** to join our team developing our GreenPlasma, a small scale, patent pending small scale system for pyrolysing solid waste using plasma technology. The device allows for onsite thermal treatment of unsorted waste with recovery of heat and energy and production of an inert residue that can be used as construction aggregate. As a standalone device or integrated into one-stop municipal solid waste treatment unit, the system is suitable for small communities, like islands or mountain villages where waste collection is costly and inefficient, and delivers back to the grid part of the energy it consumes.

The development work foreseen is mainly on the evolution of the current design of the core reactor and the integration of units for pre- and post-treatment. More specifically, the SME Associate will be expected to undertake the following activities:

1. Redesigning the device into a semi-batch or continuous process to a TRL6 within the 12 months (main objective and deliverable of the project the SME Associate is recruited for);
2. Completing the device by adding same scale pre- and post-treatment, by miniaturising existing and established technologies and by optimising the overall process;

Tenured academic staff / Tenure track lecturer Aquatic Biodiversity (Zoology)

[WHERE TO APPLY](#)
[CONTACT](#)
[SAVE TO FAVORITES](#)
[SHOW ON MAP](#)

ORGANISATION/COMPANY	Hasselt University	LOCATION	Belgium > Diepenbeek
RESEARCH FIELD	Biological sciences > Biodiversity Biological sciences > Zoology	TYPE OF CONTRACT	Temporary
RESEARCHER PROFILE	Leading Researcher (R4)	JOB STATUS	Full-time
APPLICATION DEADLINE	11/07/2017 23:00 - Europe/Brussels	HOURS PER WEEK	38

Background

Your research activities will be embedded within the Research Group Zoology: Biodiversity and Toxicology (Department of Biology) and the Centre for Environmental Sciences (CMK). The Centre for Environmental Sciences is a research institute of Hasselt University that opts for a wellbalanced combination and symbiosis between environmentally-related fundamental and applied research in a multidisciplinary research environment. The research group and the CMK have extensive (inter)national collaborations.

<http://www.uhasselt.be/cmken>

Education task

You provide high-quality education in the bachelor program of Biology, more specifically in the fields of (functional) morphology, histology, physiology, diversity and ecology of animals.

Research mission

The selected candidate will contribute to the research activities of the research group Zoology: Biodiversity and Toxicology. He/she will acquire and lead research projects within the Centre of Environmental Sciences, in collaboration with scientific partners inside and outside Hasselt University. Important goals are A1 publications in top journals, strengthening the existing research network of the group, and the supervision of PhD students. The candidate's research should be aimed at an integrative study of aquatic biodiversity, including the evolutionary processes that determine it. You are able to translate this fundamental knowledge in the development of a sustainable biodiversity policy. The candidate's research will focus on the study of biodiversity, and can be specifically focused on research fields such as (functional) molecular and morphological evolution, animal ecology or population genetics. Applied, society-relevant research is an asset (eg. research on indicator taxa, invasive exotic species).

ADDITIONAL INFORMATION

Benefits

We will offer

- either an appointment as a lecturer in the tenure track system during 5 years. This will lead to an immediate permanent contract as a senior lecturer, if the Board of Directors favorably assesses the party involved, based on previously set public grading criteria.
- Otherwise, we will offer a fulltime appointment as a lecturer or higher, which will lead to tenure. In case of a first appointment as a member of the academic staff, the Board of Directors of the University can decide on a temporary appointment for a period up to 3 years. This will lead to a permanent contract if the Board of Directors favorably assesses the party involved.

Selection process

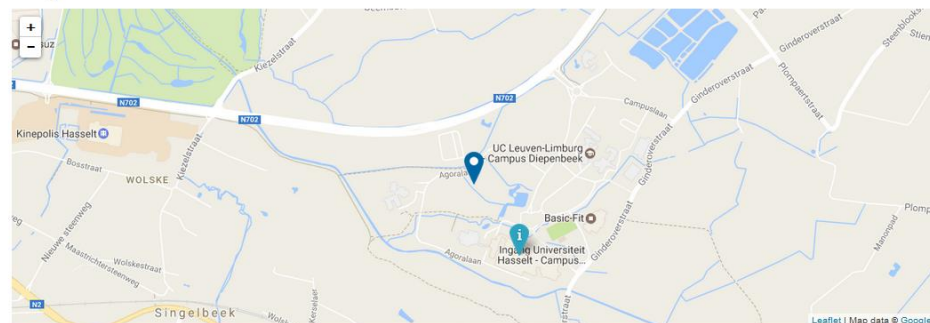

Preselection based on CV. Selected candidates are interviewed and assessed on a test lesson / presentation.

CURRENT LIVING COUNTRY United States

ORGANISATION / COMPANY n/a

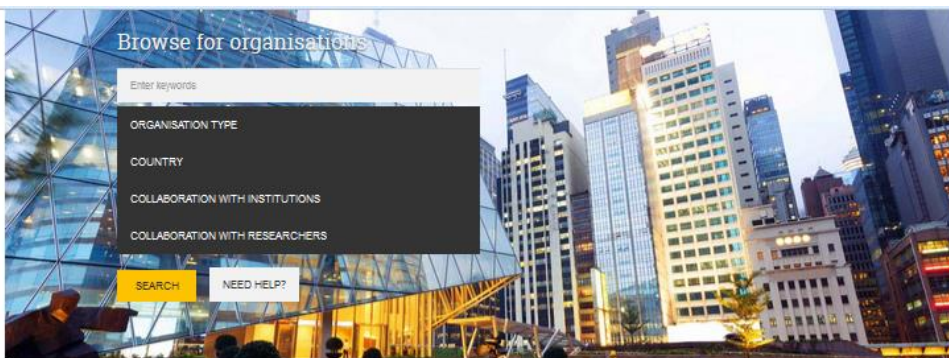

I am seeking to use my skills in molecular biology to contribute to research that will help counter the effects of science and environmental protection policies being implemented by the current government of the United States. I am gravely concerned with climate change and its effects on human, animal, and environmental health. I have a PhD in Microbiology and Immunology, and a Bachelor's degree in Biopsychology. I have a broad background in general and medical biology from coursework, and almost 10 years of research experience in molecular biology, microbiology, and biochemistry. I am particularly skilled with DNA and RNA extractions, manipulations, sequencing, and sequence analysis, as well as light microscopy and Southern blots. I have some experience with protein purification, Western blots, and NGS. I have worked with prokaryotic and eukaryotic organisms in a BSL-2 facility.

I enjoy teaching and have plenty of experience working with undergraduate students as a tutor, mentor, academic advisor, and teacher. I am interested in a long-term research position such as a research associate or lab manager, and would love the opportunity to continue working with students in any capacity.

Adam Mickiewicz University in Poznań is the major academic institution in Poznań and one of the top Polish universities. Its reputation is founded on tradition, the outstanding achievements of the faculty and the attractive curriculum offered to students.

In addition to its facilities in Poznań, it has campuses in Gniezno, Kalisz, Piła and Słubice/Franfurt-Oder. The University currently employs nearly 3,000 teaching staff, including 371 tenured professors and other professors with title, 1407 assistant professors, 369 senior lecturers and lecturers and over 2200 nonacademic employees.

The University was founded in 1919 and currently its student population is nearly 41 000 students (nearly 700 are international students).

Students may choose between 180 possible professional specializations. In recent years the educational offer has become increasingly diverse. New educational projects include: integrated studies in humanities, natural sciences, social sciences, and program carried out in cooperation with other institutions both in Poland and abroad.

The mission of the University is to advance knowledge through high quality research and teaching in partnership with business, the professions, public services and other research and learning providers. The University is a center of academic excellence, where research and teaching are mutually sustaining, and where the context within which research is conducted and knowledge is sought and applied is international as much as regional and national. The University continuously extends and updates research programs and contents of study curricula, with special emphasis on their interdisciplinary and international nature. The University recognizes its role as a strategic partner in Central Europe, and therefore aspires to contribute to the region's economic growth social development and environmental sustainability. The University prides itself on its achievements and aligns its principles with those of the Great Charter of European Universities. It promotes pro-European ideas and actively participates in the international academic community, seeks to implement joint research and educational programs. It aims to strengthen ties with the European Union Member States and embarks on new initiatives conducive to cooperation with the countries of Europe.

EURAXESS - Researchers in Motion

- Do you think this is appealing for the non-academic sector ?
- How can we get more non-academic organizations to become members?
- Other resources specifically for non-academic sector?

THANK YOU!!
